

PGY-1 Pharmacy

Residency Program at Lutheran Hospital of Indiana

The Pharmacy Residency Program is a comprehensive, post-graduate training program that provides unique learning opportunities with diverse patient populations in multiple facilities. Residents have the opportunity to advance their clinical skills and knowledge base, further develop their leadership skills and provide patient-centered pharmaceutical care as an integral member of the healthcare team.

Goals

- ▶ Develop leadership skills that meet current pharmacy practice challenges and promote advancement of the profession
- ▶ Gain the knowledge necessary to serve as the expert medication consultant on a multidisciplinary team
- ▶ Strengthen communication skills to provide accurate and timely drug information to patients, healthcare providers and students
- ▶ Advance clinical skills to ensure safe and effective medication use that results in positive patient outcomes
- ▶ Promote medication safety through the application of best practices utilizing critical thinking skills, technology and other available resources

Mission Statement

Lutheran Hospital's PGY-1 Pharmacy Residency Program builds on pharmacy education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification and eligible for postgraduate year two (PGY-2) pharmacy residency training.

- Accredited comprehensive cancer program

Our Community

Fort Wayne is Indiana's second largest city, with a population of more than 266,000 within the city limits and an additional 120,000+ residents in suburban and rural Allen County. Extensive healthcare, education, arts and entertainment and recreational activities, coupled with lower cost of living, make northeastern Indiana a great place to live, work and play.
